RE: Star Point Waste Fuel - Permit # C/007/042
Permit Amendment – Change in Post Mining Land Use

Dear Darron:

As you are aware, SCA has been working with ConocoPhillips over the past few years to assist them in utilizing a gas lease that they received from the BLM on a portion of federal property within the mining permit area. As such, SCA is submitting this permit amendment (five copies each).

This amendment is to change the post mining land use (PMLU) to industrial in this portion of the permit area and for the access corridor and drainage area directly above it. Coupled with the change in PMLU, SCA is changing the reclamation plan for the industrial area to scrape the area clean of coal materials so that it can be used for the intended gas operations.

Upon DOGM approval of this amendment, SCA will commission the reclamation and request bond release. SCA is submitting a separate permit amendment to adjust the permit boundary such that most of the proposed industrial area would be outside the permit area.

Should you have any questions, please contact Scott Carlson (801)450-3511 or Rusty Netz at (435)888-4476.

Thank You
